EDUCATION

G.C.E. Ordinary Level (O/L) - [2019]

- Mathematics - A
- Science - C
- English - C
- Sinhala - C
- History - C
- Religion - B
- Geography - B
- Health Science - A
- Art - C

G.C.E. Advanced Level (A/L) - [2022]

- Science For Technology - C
 - Information and Communication Technology - C
 - Bio Systems Technology - C
- Z Score - 0.579

SKILLS

- Python & R -
- SQL & Databases
- Machine Learning
- Data Visualization
- Statistical Analysis
- Predictive Modeling

ABOUT ME

Passionate and analytical Data Science Undergraduate with strong foundations in statistical modeling, machine learning, and data visualization. Proficient in Python, SQL, and data analysis frameworks, with hands-on project experience in extracting actionable insights from complex datasets. Eager to contribute technical skills and a problem-solving mindset to a dynamic data team as a Data Science Intern.

EXPERIENCE

Machine Learning Project Lead | Academic Project (2024)

- Built a Customer Churn Prediction Model in Python (Scikit-Learn) with 88% accuracy.
- Performed EDA and data preprocessing using Pandas, NumPy, and Seaborn.
- Deployed an interactive web app for model predictions using Streamlit.

Data Analyst Trainee | E-commerce Analytics Project (2023)

- Designed a Power BI dashboard to analyze e-commerce sales trends and revenue KPIs.
- Wrote optimized SQL queries to extract and clean raw data from MySQL databases.
- Generated data insights that helped identify top-performing product categories.

NLP Research Assistant | University Project (2023)

- Developed a Sentiment Analysis Pipeline in Python to analyze 50K+ social media reviews.
- Used NLTK for text preprocessing, tokenization, and TF-IDF feature extraction.
- Visualized key sentiment patterns and presented findings to faculty panels.
